

MSVUSU Important Update

On Tuesday, we finalized the results of our Health & Dental Referendum and all four questions passed. Now, the MSVU administration is refusing to process the Health & Dental fees in January. They are willing to process the fees for Full-time Graduate students in September 2021 but will not process the fees for part-time undergraduate or part-time graduate students at all.

We disagree with this and are doing everything we can to ensure you have access to your Health & Dental plan this year. The MSVU administration is citing low voter turnout as the reason they will not process the fees for our part-time students. We want your feedback on how to proceed.

Please fill out the survey below to tell us what you think.

We would also like to meet with students, particularly part-time students who are willing to provide more information and insight into this topic. If you are willing to meet with us, please email Jesse Sutherland at supres@MSVU.ca.
